C22-311 Joint Motion by Member Weinstein and Mayor Siddiqui

WHEREAS: The Massachusetts Bay Transportation Authority (MBTA) is reviewing and revising bus service schedules; and

WHEREAS: Cambridge Public School District (CPSD) students and their families rely on public bus service to attend school and to participate in out-of-school time opportunities including extracurricular activities, sports, jobs, and internships; and

WHEREAS: CPSD does not provide school bus transportation to students in grades 9 to 12; and

WHEREAS: Proposed changes to MBTA bus routes serving the City of Cambridge include reductions and changes in routes and/or schedules that would greatly impact the ability of CPSD students to access school and other activities; and

WHEREAS: Many issues with the proposed route modifications and recommendations have been brought forward by the community, including:

- **Route 68** Harvard - Kendall / MIT (travels down Broadway between Kendall Sq. and Harvard Sq.). MBTA proposes reducing service to weekdays only 6:00 am- 9:00 am and 4:00 pm-7:00 pm every 30 minutes. Afterschool activities and sports need evening rush hour frequency service extended to 3:00 pm-8:00 pm;
- **Route 69** Harvard - Lechmere (travels down Cambridge St. between Lechmere and Harvard). MBTA proposes a reduction from every 15 mins to every 30 mins;
- **Route 83** (Rindge Ave to Central Sq. via Porter Sq.). MBTA proposes a reduction to every 30 minutes from the current 20 minutes. Current frequency should be maintained, or increased to every 15 minutes to make the bus usable between 3:00 pm and 8:00 pm;

- **Routes 69 and Route 83** are being cut drastically; the frequencies of both routes should be increased to account for the needs of students;
- **Route 78** (78 Arlmont Village - Harvard via Garden St., Concord Ave to Cambridge Highlands). MBTA proposes a reduction from every 25 minutes to every 60-90 minutes (6:00 am-1:00 am). Students on this line need more frequent service to access school and afterschool activities and sports need evening rush hour frequency service extended to 3:00 pm-8:00 pm. Cuts to Route 78 also reduce access to Neighborhood Nine, Cambridge Highlands, Concord Ave between Huron and Blanchard Rd, including assisted care and medical facilities; it is also the only connector between West Cambridge and Arlington;
- **Route 75** (The dedicated CRLS route on school mornings) provides essential transportation services for high school students to get to school on time and should be reinstated and additional dedicated CRLS routes considered for other areas of the City;
- **Routes throughout the City** need to be assessed in light of new and planned housing units including affordable housing and the potential future needs of students living in that housing; therefore, be it
RESOLVED: That the Superintendent and Mayor Siddiqui send a letter and forward this policy order along with emails from the community to representatives at the Massachusetts Bay Transportation Authority (MBTA) and the Cambridge state delegation on behalf of the entire School Committee, and be it further
RESOLVED: That this letter will detail the MBTA bus routes and schedules that are critical for the needs of CPSD students, with particular attention to those students and families who rely the most on MBTA busses; and be it further
RESOLVED: That CPSD will review student needs and the most recent MBTA proposals before submitting the letter and will add to or modify the list noted above if needed, and be it further
RESOLVED: The Cambridge School Committee goes on record in support of changes that improve access and in support of further changes to address the concerns of residents as summarized above, and be it further
RESOLVED: That this letter will be delivered to the MBTA, the state delegation, and the Governor-Elect Maura Healy as soon as possible with a request for a response.

7. Superintendent's Agenda:

7a. Superintendent's Update: Dr. Greer introduced the new Director of Facilities, David Murphy. Mr. Murphy spoke briefly and gave an overview of himself and expressed his excitement to join Cambridge.

7b. Presentations:

Mayor Siddiqui passed the floor to the administration for a presentation on College and Career Readiness. The full presentation can be found on the [website](#).

After the presentation, Mayor Siddiqui opened up the floor for questions and discussions.

Member Weinstein expressed his excitement in that the district is doing so much in terms of college and career readiness. He inquired about the types of support are students getting to get be better prepared for the Harvard Extension School. Dr. Gittens responded that it is important to understand the definition of what it means to be "prepared". Being clear and intentional with goals for students is extremely important

to ensure students are getting the adequate skill needed to be successful after graduation. **Member Weinstein** also inquired about built-in support systems for students enrolled in Early College and the cost of early college programs (i.e. Harvard Extension School and Lesley University. Ms. Williams provided more detail on support systems which include academic support which includes a ninth-grade on-ramping program (for a better understanding of the Early College Program and how to be successful) and weekly meetings. Early College at Lesley is free and there is a full scholarship available for seniors at Harvard Extension School if they meet the scholarship criteria. For sophomores and juniors, there is a \$900 scholarship. Principal Smith shared that the district approved and set aside funding for the Bunker Hill Dual College program.

Student Member Escamilla-Salomon shared her excitement about the early college initiatives that the district is currently offering and asked about student preparation (primarily for 10th-grade students). Both student members took the Social Welfare Policy course. Dr. Gittens mentioned that one of the learnings the district has made from the first semester was personal advocacy (and preparation for students to be able to visit and attend courses on campus and find the classrooms or ask questions if they cannot locate them.

Member Hunter inquired about ENROOT and equitable access for families regarding the information that was presented as well as scholarship opportunities for some of the early college programs. Ms. Williams clarified that ENROOT is a support system for ELL students. Principal Smith shared examples of outreach that the district and CRLS have made over the past year to provide more information to families regarding college and career readiness opportunities. **Member Hunter** also inquired about the student who is attending Mass Maritime (Is the student attending the organization full time and is the student taking the course online and/or in-person) and for additional information on the Ben Franklin program and eligibility for RSTA students. Dr. Gittens responded that current students attending the Ben Franklin Cummins Institute of Technology (BFCIT) are current students at the Extension School. The BFCIT program will be implemented next year which will be a pathway. Dr. Greer mentioned that the district is still in the process of obtaining a grant and working on an MOU with BFCIT. The pilot starts this year with a goal for implementation next year.

Vice Chair Rachel asked the student members about the student perspective regarding the Falcon Block. **Student Member Escamilla-Salomon** mentioned that she thinks a lot of students are happy to engage in activities outside of the normal curriculum as they provide a good break into their schedules. She shared her Falcon Block experience (where Thursdays are structured, and Fridays are more relaxed) and thinks the district can provide more clarity on the goals for Falcon Block. **Student Member Clemente** thinks that the opinions of Falcon Block are dependent on grade level. As a senior, she is used to Community Meetings so she uses the time to be productive but other students may have some struggles with it as they are used to a different structure with Community Meetings overall, she has not heard students say they “do not like” Falcon Block.

Vice Chair Rachel inquired about the participation numbers for early colleges in the spring and fall, as the enrollment numbers in the spring are significantly lower than the fall enrollment numbers. Student Member Escamilla-Salomon responded that a lot of students were unaware that spring courses were being offered and student schedules are set the previous spring, so it is difficult for them to modify these schedules in the school year. Ms. Williams mentioned that it is important for CRLS and Lesley to work

together for better course planning. **Vice Chair Rachel** also inquired about ways the district can increase enrollment for young men and non-binary students for early college. Dr. Gittens shared that the district is still working to determine the root cause for the reason why the male and non-binary enrollment numbers in early college are low and is working on strategies to increase enrollment numbers in those two groups.

Member Wilson shared her excitement in the district and the “rich-resource” city that is Cambridge. She expressed her disappointment with the students not being able to utilize the early college program in the spring due to scheduling and planning conflicts since students plan their school-year schedules in the spring. **Member Wilson** asked Ms. Williams about her thoughts on the course planning process and how to better align that process with early college. Ms. Williams shared her thoughts and different ways she thinks the district can better improve both the course scheduling and the early college process. **Member Wilson** asked if the district has done any exit interviews for early college students who are not returning to the program and if the district can aggregate data on student enrollment and interest in the Harvard Extension School. Dr. Gittens said that Mr. O’Shea has exit interview data. Principal Smith responded that the Harvard Extension School is currently an opportunity and not an offered pathway, but it should be something that can be explored in the future.

Member Fantini inquired about the Harvard Extension credits. Ms. Williams responded that students do receive high school and college credit, but it is their liberty to turn in a transcript. **Member Fantini** asked about the status of the MYCAP program. Ms. Williams shared that the district is still working on MYCAP expansion along with work base learning experiences through MYCAP.

Mayor Siddiqui inquired about an evaluation of MYCAP. Principal Smith mentioned that the evaluation of the MYCAP program will be the post-graduation student outcomes. **Mayor Siddiqui** closed the discussion by encouraging the Committee to reach out to the superintendent with any lingering questions
